INSTRUMENTALS: 2000-2015

Album #1

'Instrumentals: 2000-2015'

Thanks to family, friends and Christ.

A collection of instrumental music from a fifteen year duration of time.

This has been the culmination of many enjoyable play sessions in front of the keyboards, turntables,

samplers, electric guitars and many other instruments or recording devices.

In some ways it's an ambient record; but there will be tracks that may pique a number of

different tastes. I truly hope you like this music and that it is fun for winding down, driving, studying or however you best enjoy it.

With thanks for your support,
JM@C
