## INSTRUMENTALS: 2016-2020

Album #2

'Instrumentals: 2016-2020'

Thanks to family, friends and Christ.

I found that I had quite a few tracks created that had a different feel to the albums I was creating.

It seemed the best thing to do was to release them as instrumentals. What I then found was that I kind of preferred them that way, without vocals. It was enjoyable to collate them in one place for your enjoyment.

They may be great for study!

Some are relaxing, some upbeat, but all are individual in their own way. I hope you like them!

With thanks for your support, JM@C
